RE: Docket A2011-34

Attention: Ms. Gernada Bailey

Closure of the Innis Post Office would be a poor decision on behalf of the USPS. This post office is centrally located between the towns of Lettsworth, LA, and Batchelor, LA where there are the other two local post offices.

The Lettsworth, L...A post office is physically located whereby all of the customers have to drive there. The Batchelor, LA post office is located in a very congested area.. There are traffic accidents occurring there constantly. There is an intersection with a caution light there, where the Pointe Coupee Grain Elevator is located. Therefore there are constant 18 wheelers of grain pulling out onto LA HWY 1, blocking view for the Batchelor post office customers to pull out onto the highway. On top of this there are 18 wheelers of plastic pipe pulling out from JM Eagle in Batchelor, La, also causing traffic hazards. The Batchelor post office is also located on the same site as a convenience store /take out food court and a daiquiri/video poker site. There is always a lot of congestion in this area for patrons to use the post office and for parking.

I have been a resident of Innis, LA and a post office box customer since 1979. There is plenty of parking room without hazardous congestion. In the event the Innis post office is closed and the Batchelor post office is left open, you can rest assured that there will be many complaints to the USPS about this site. We realize that we do need to consolidate as revenue is down, but we do not need to consolidate to a lesser standard for USPS operations.
